PROFESSIONAL SUMMARY

Full-Stack MERN Developer pursuing a B.Tech in Computer Science & Engineering with experience building AI-powered applications, real-time communication systems, and scalable web platforms. Adept at creating seamless user interfaces, integrating LLMs, and developing responsive end-to-end architectures.

TECHNICAL SKILLS

Languages:	JavaScript, HTML, C, Java, Python, SQL
Framework & Libraries :	React.js, Next.js, Tailwind CSS, Node.js, Express.js
Database :	MongoDB, Appwrite, Pinecone (Vector Database)
Concepts :	REST APIs, JWT Authentication, Socket.io, Data Structures & Algorithms, OOPs, Operating Systems, Computer Networks
Tools & Technology :	Git, GitHub, VS Code, IntelliJ IDEA

WORK EXPERIENCE

Software Developement Intern | Jobeefie Urjatech

Apr 2026 – Jul 2026

Technologies Used: JavaScript, React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed and maintained highly responsive, performance-optimized web applications using React.js, Node.js, and MongoDB.
- Built and integrated structured RESTful APIs to ensure reliable, high-speed frontend-backend communication.
- Executed comprehensive debugging, testing, and production deployment cycles, significantly enhancing overall user experience and platform stability.

PROJECTS

AI-Powered Resume Reviewer & Career Copilot

Full-Stack Developer

Technologies Used: React.js, Node.js, Express.js, MongoDB, Gemini API, Tailwind CSS

- Developed an AI-driven resume analysis platform that evaluates profiles against specific job descriptions to provide real-time optimization metrics.
- Built an automated matching engine to calculate strict compatibility scores and identify critical missing technical and soft skills.
- Integrated the Gemini API to dynamically generate targeted technical and behavioral interview questions based on unique candidate data.
- Created an interactive learning roadmap feature offering step-by-step topic recommendations and structured resource paths to bridge skill gaps.

AI-Powered Chat-Generative Platform

Full-Stack Developer

Technologies Used: React.js, Node.js, Express.js, MongoDB, Socket.io, Gemini API, Pinecone

- Engineered a production-ready AI chatbot supporting persistent, long-term conversation history and context-aware dialogue flows.
- Integrated Large Language Models via Gemini API to drive intelligent, high-accuracy contextual automated answers.
- Implemented highly scalable vector-based memory storage and fast context retrieval utilizing Pinecone.
- Developed real-time, low-latency bi-directional network communication channels using Socket.io layers.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University

2023 – 2027

B.Tech in Computer Science & Engineering

(SCGPA: 7.72)

Maa Pateshwari Devi Rajkiya Engineering College, Gonda

AWARDS & ACHIEVEMENTS

- 1M1B AI Sustainability Certificate:** Successfully engineered 3+ real-world AI agents targeting practical sustainability objectives.
- National Entrepreneurship Challenge:** Represented the college Entrepreneurship Cell (E-Cell) in the national finals organized by IIT Bombay.
- Technical Council Member:** Appointed to the student technical council in recognition of excellent engineering skills and continuous contributions to the peer developer community.
